WHAT IS THIS PRODUCT?

Type

The Units are a class of units in BPI Iberia, a sub-fund of CaixaBank Global Investment Fund. The Fund is formed as a fonds commun de placement. The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "2010 Law"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "Management Company"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("KID").

Term

The Fund, the Sub-Fund and the Units were created for an unlimited duration. The Fund can be dissolved by a decision of the Management Company as further outlined in the prospectus of the Fund. The PRIIP Manufacturer in its capacity as management company can terminate the Fund, Sub-Fund or the Units unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide investors with long-term capital appreciation, based on risk spreading and future potential growth. The Sub-Fund will mainly invest in equity securities issued by Portuguese and Spanish companies and companies that have their main activities in Portugal and Spain. The target medium annual value of the instruments issued by Portuguese and Spanish companies and companies that have their main activities in Portugal and Spain will be equal or superior to two thirds of the medium net asset value of the Sub-Fund for the same period. Only on occasional situations may the medium annual value of these assets be inferior to two thirds of the medium net asset value of the Sub-Fund. The Sub-Fund will not enter into Securities Financing Transactions ("SFTs"). The Sub-Fund will not enter into total return swaps. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and other transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Units are capitalisation units, which aim at accumulating the net income which is subsequently reflected in the net asset value per Share, and therefore the income arising from the Sub-Fund is not distributed. The Units may be subscribed and redeemed upon demand on each Luxembourg banking day. Taking into account the medium to long-term holding period and the characteristics of the investments, the performance of the Sub-Fund depends on the performance of the investments over time. A positive

performance of the investments will lead to the Sub-Fund's positive performance just as a negative performance of the investments will cause a negative performance. The Sub-Fund pursues an actively-managed investment strategy. The Sub-Fund is actively managed without any reference to a benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark. The investments underlying the Sub-Fund do not take into account the European Union ("EU") criteria for environmentally sustainable economic activities¹. The depositary of the Fund is BNP Paribas, Luxembourg branch. This KID is available in English, Portuguese, Spanish, German and French. The latest price for the Units is available at the registered office of the Fund, 46b, avenue J.F. Kennedy L-1855 Luxembourg, Luxembourg. The Fund is an umbrella fund offering several sub-funds whose assets and liabilities are legally segregated between each other. Such document only describes the class R of BPI Iberia. Other classes are also available within this Sub-Fund. Further information on such classes is available in the prospectus of CaixaBank Global Investment Fund. Conversion in and out between sub-funds/classes of units within CaixaBank Global Investment Fund is allowed. Periodic reports and the prospectus, as further outlined in the section "Other relevant information" below, are prepared for the Fund as a whole. For further information, you may refer to copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information which are available in English at the registered office of the Fund, 46b, avenue J.F. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 5 years.

You can redeem your investment at any time during this period, or hold the investment longer. For Units subscribed for less than 180 calendar days, a redemption charge of up to 2% may apply. Investors may redeem their units of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
