The Total Amount Charged to the Consumer and the APR shown imply that the consumer has an open account with the Bank for more than 30 days and include credit processing fees and the respective taxes.

Before taking out your credit, clarify all your doubts, read the contract and the specific financing conditions carefully and make sure that the instalments are adequate for your monthly budget. For more information, contact your local branch or BPI Premier Centre.

Warranty

The equipment is warranted against proven manufacturing defects for a period of 2 years (Pick Up and Return) from the date of original purchase. The guarantee does not include any situations caused by misuse and mishandling of the equipment.

Delivery, Cancellation and Return

The products are delivered to the address provided by the Customer (if located in Mainland Portugal and Islands), after prior booking by phone. Installation and training for the Customer (approximately 1 hour) on how to get the best out of the equipment will be carried out by specialised technicians and will take place on delivery.

Delivery time is three weeks for Mainland Portugal and four weeks for the Islands, after the order date. You can withdraw from the purchase within 14 days after the delivery date of the ordered product. In this case, the return of the product can be made free of charge. For this purpose, you must return the product with the original invoice and packaging, complete and in perfect condition, to a BPI Branch or Investment Centre. You can also return directly to the Supplier at the address specified herein. In this situation, BPI ensures the refund of the amount by crediting the current account or card account, depending on the means of payment used.

Important note:

The television set installation will be carried out providing conditions exist for connecting the equipment in perfect working order and safety, namely power outlets, and internet connection. Does not include any civil construction works, carpentry, alterations to the existing electrical installation, installation of electrical wiring from the outside or inside of walls, passing of wires conducting electricity along with speaker wires or supply of cable trunking not included in the equipment. The Customer is responsible for ensuring that there is electric current in the place chosen to place the TV. If the customer or someone replacing him/her is not present on the day scheduled for the installation of the equipment, all costs associated with the rescheduling will be covered by the customer.
